

Computer Vision

Final Project: Incisor Segmentation

Robin Haveneers, Kristof Arron

May 30, 2017

Contents

1	Building of an Active Shape Model	2
1.1	Generalized Procrustes Analysis	2
1.2	Principal Component Analysis	2
2	Preprocessing the Radiographs	2
3	Fitting the Model to Images	2
3.1	Manual Initialisation	2
3.2	Automatic Initialisation	2
4	Evaluation of the Results	2
5	Discussion	2
5.1	Further Improvements	2

- 1 Building of an Active Shape Model**
 - 1.1 Generalized Procrustes Analysis**
 - 1.2 Principal Component Analysis**
- 2 Preprocessing the Radiographs**
- 3 Fitting the Model to Images**
 - 3.1 Manual Initialisation**
 - 3.2 Automatic Initialisation**
- 4 Evaluation of the Results**
- 5 Discussion**
 - 5.1 Further Improvements**
